# Introductory

---

THE PUBLISHERS take pleasure in presenting herewith the Seventh Annual Edition of Henderson's Lethbridge Directory, comprising the territory of the City proper and all adjoining subdivisions, suburbs and environs.

The Advertising Department presents the names of corporations, firms and individuals who are making Lethbridge the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 1269 Fifth Avenue North is wanted: refer to street section Fifth Avenue North—glance down to 1269, then to the nearest intersection to 1269. It will be found that this number is three houses east of Twelfth Street C North, between Twelfth and Thirteenth Streets

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Lethbridge, which forms a most efficient wholesale and retail buyer's guide.

The Lethbridge Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its Industries.

The Directory method of estimating population is to multiply the individual names the Directory contains by a common multiple. The figures given below are more in the nature of a calculation. A complete census only can give definite and accurate figures.

## 1919 POPULATION OF LETHBRIDGE, 14,500

These figures deal with Lethbridge, and are an estimate only, based upon the number of names the Directory contains. It is not a census.

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Lethbridge have always shown in their publications.

# Lethbridge, Alberta

---

Lethbridge, Alberta, is a city of 14,500 inhabitants, situated forty-five miles north of the international boundary line, 764 miles west of Winnipeg. It is a prairie city on the banks of the Old Man River, just east of the Canadian Rockies, on the Crow's Nest Division of the Canadian Pacific Railway, and is the commercial and agricultural centre and supply point of Southern Alberta and the Crow's Nest Pass coal fields. It is the centre of large coal mining operations. The development of coal mining in this vicinity is the largest in Canada, west of Nova Scotia.

Lethbridge is spoken of by the travelling public as being the most beautiful of all the prairie cities. It is clean and sanitary. Its well kept parks and boulevards merit the admiration of all. As the traveller steps off the train, the first thing that greets his view is a park or garden, covering ten acres, or four blocks, in the centre of the city. By getting on the street cars and travelling eastward he passes through wide streets bordered by rows of trees and boulevards on each side, until he reaches Henderson Park, which covers 200 acres and contains a beautiful artificial lake nearly a mile long, on which there is sailing, rowing and swimming in the summer, and skating in winter.

The street railway system, owned by the city, stretches over eleven miles, and there are two miles of paved roads.

The lighting system is by electricity, supplied by a municipally-owned power plant, which is one of the most up-to-date and economical in Western Canada, the fuel used being supplied by a municipally-owned mine within a stone's throw of the plant. This enables the city to sell electric current for lighting and industrial purposes at very attractive rates.

The telephone system embraces the latest models of automatic phones, and is owned and operated by the Alberta Government. The water supply comes from the Old Man River, which has its headwaters in the Canadian Rockies, and affords a never-failing supply of water. The water comes through an up-to-date filtration system, and

is then forced up the banks of the river into large mains and distributed throughout the city. The waterworks are owned and operated by the city.

The city government of Lethbridge has been progressive. Lethbridge is the first city in Western Canada to adopt the Commission form of government. Three commissioners with defined responsibilities, and giving their whole time to official duties, administer all the municipal affairs.

This city has a fine class of school buildings for the 2,300 pupils. The schools are all constructed of brick, with stone or cement foundations. They are equipped with all modern conveniences, and consist of four public schools, one Roman Catholic separate school, one manual training school, one kindergarten school, and one high school. Pupils from the Lethbridge schools have demonstrated the efficiency of the tuition provided by taking premier place in the provincial competitions.

The discovery of natural gas has lately provided another valuable attraction for Lethbridge. The city is well piped, the pressure is strong, the supply unfailing, the quality good and the cost to consumers very low.

This city is situated in the centre of a vast agricultural and coal mining area, and affords ample opportunities for the investor in various lines, such as mining, agriculture, dairying, milling, clay products manufacturer, manufacture of flax products, soap manufacturing and various other lines.

Lethbridge commands the eastern entrance to the Crow's Nest Pass through the Rocky Mountains. Between the city and the mountains, for some seventy-five miles, stretches a fertile plain, the western border of the great prairies. Across this plain the mountains are easily visible from Lethbridge. Eastward the same wonderful prairie stretches to Winnipeg, and southward to the international boundary. The agricultural products of this vast and fertile prairie require an outlet to the Western United States, British Columbia and through the Pacific Coast ports to the world's markets. The most important channel for this commerce is through Lethbridge and the Crow's Nest Pass.

At Lethbridge, mills, elevators, factories, wholesale houses and stores required for the storage, manufacturing, marketing and shipping of this growing business are being provided as the traffic develops. The Canadian Pacific Railway completed its lines through the Crow's Nest Pass to Vancouver in 1916. This route from Winnipeg to Vancouver through Lethbridge and the Crow's Nest is shorter than the line through Calgary and the Kicking Horse Pass. The line through the Crows Nest to the Kootenay and the Columbia Valley country of British Columbia and via Kingsgate to the States of Washington, Oregon and California now serves a large and growing traffic.

Fruit, produce, forest and mineral products from three localities, the imported merchandise intended for consumption by the rapidly increasing population of the great prairies are finding Lethbridge the logical gateway and the most convenient point for storage, assembling, assorting, marketing, and reshipping.

Lethbridge is likewise in command of a most important railway line to and from the United States via Coutts. The freer trade relations between Canada and the United States constantly promote the importance of this traffic. Lethbridge will also presently command the short line via Weyburn and Portal to and from Northwestern Canada and the Dakotas, Minnesota and the Central United States.

### COAL MINING

The coal mines within a radius of six miles from Lethbridge produce about four thousand tons of coal per day in the busy season. Coal for storage at prairie cities is mined steadily from June onwards, and the miners are busy right through until March or April.

### AGRICULTURE

Agriculture is making rapid progress in the districts surrounding Lethbridge. There have been adverse seasons through occasional shortage of rainfall, and the farmers have thoroughly learned the lessons regarding the proper cultivation required to meet these climatic conditions. The Canadian Government Experimental Farm, just outside the city limits, is under the competent management of Mr. W. H. Fairfield, whose great experience is always freely at the service of the farming community. Grain farming and live stock raising are carried on with great success on the prairie lands, much of which are still unoccupied and for sale at very low prices; while farming and stock raising and feeding operations on the 100,000 acres of irrigated land close to the city are also highly successful.

The grain crop in 1915 was phenomenal in volume. Some 39,000,000 bushels of grain, valued at over \$50,000,000, were shipped from the Lethbridge district in that year, the yields of wheat from individual farms averaging about 40 bushels per acre. The yields in 1916 have also been high, the average for wheat being 30 to 35 bushels per acre. The district holds the world's record for the production of wheat; in 1916 the Nobleford Farm, eighteen miles from Lethbridge, recorded a yield of 54.395 bushels from a thousand acres. The yields of barley and oats have also been prolific, and, like the wheat, of the very highest quality.

The irrigated lands are largely planted to alfalfa, producing an average of  $4\frac{1}{4}$  to 5 tons per acre from three cuttings per season.

The Board of Trade is one of the most active bodies of its kind in Canada. It keeps the farming community and the business men in close touch with each other and does a great deal to further the interests of both.

## THE OBJECTS OF THE ASSOCIATION

The Association of the American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

**\$100.00 REWARD** will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.

Letters:-

They do "get in" and they  
should be used to help your salesmen.

They may be sent to thousands  
whom you can only interview by mail.

First--you need a GUARANTEED  
MAILING LIST. We have excellent  
lists of farmers and rural residents  
--the trades--automobile owners  
and dealers.

Write and let us explain our  
complete mail-order service.
